SUMIT CONTROL PANNEL & FIXTURES

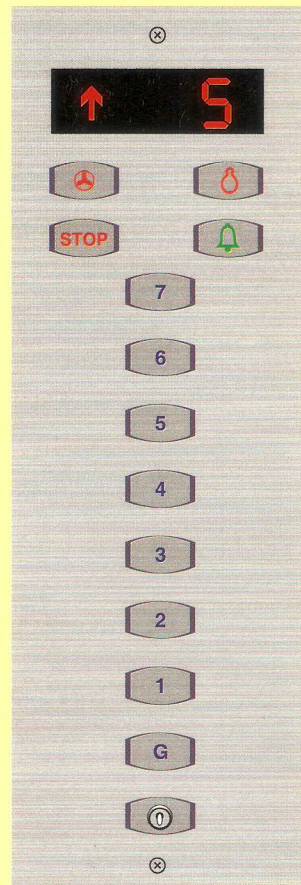

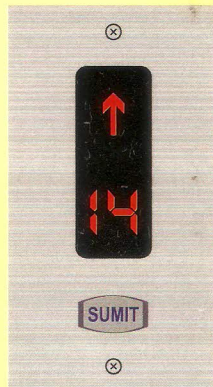

**STANDARD TYPE
&
DOWN COLLECTIVE SYSTEM**

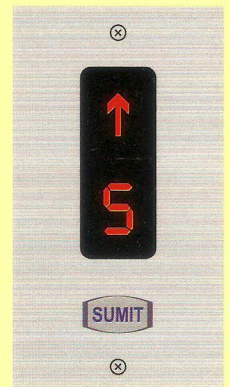

**V3F (Variable Voltage
Variable Frequency)
Micro Processor Control-Jerkless Travel**

TWO SPEED LIFT (POWER OPERATING DOORS)

SINGLE SPEED LIFT

PLATES : The plates of car operating pannel (C.O.P.) & outside hall button are made of stainless steel material with mirror finish/hairline finish.

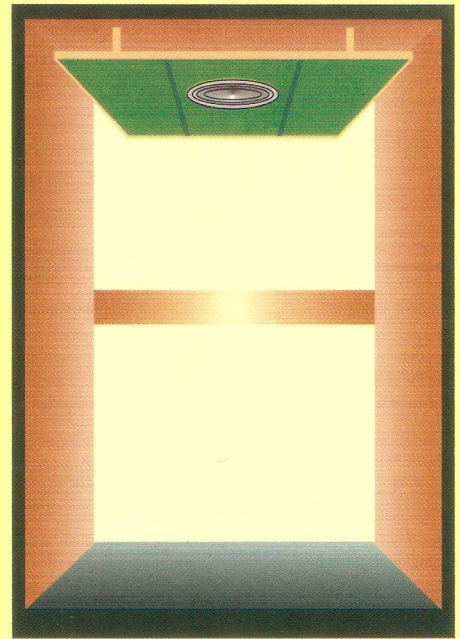

BUTTON & DISPLAY : Micro Switch carrying voltage upto 110 V-5A with sure make & brake contacts, which enhances aesthetics & technical functioning of button. Display showing up/down arrow (↑) with numerical display with red arrow & red digit.

BODY : Made of M.S. (Mild Steel) powder coated cabin with single colour.

CEILING : False ceiling made of M.S. angle/wooden molding with acralic & flouresent lights.

FLOORING : P.V.C. tiles or marblex.

Specially made for Goods & Hospital Lifts.

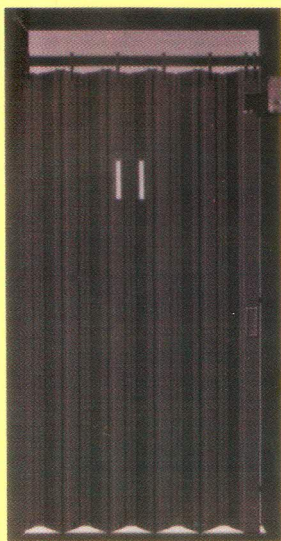

BODY : Made of S.S. (Stainless Steel) with hairline finishing.

CEILING : False ceiling made of S.S. angle/wooden molding with acralic & flouresent lights.

FLOORING : P.V.C. tiles or marblex/granite.

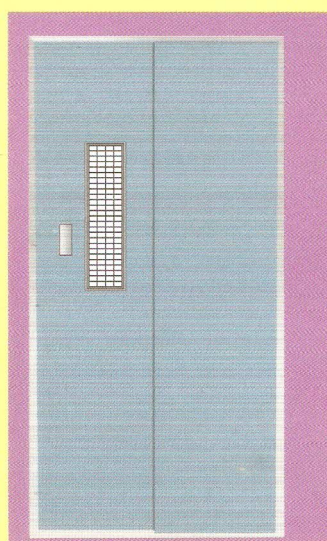

Specially made for Residential Lifts.

CAR LIFT

SUMIT LIFTS :

SUMIT RESIDENTIAL LIFTS are designed very carefully, safely & beautifully lift cars (cabin) to meet most challenging specification set by our clients. Noiseless working of mechanical & electrical equipments make **SUMIT LIFTS** model of perfection. Superior quality at economic cost, clients care & satisfaction is the motto of SUMIT ELEVATORS.

SKILL'S :

SUMIT LIFTS stands for successes in all areas for NEW INSTALLATION, MODERNISATION, REPAIR, MAINTENANCE (of any make) & AFTER SALES SERVICE, are our focus areas. Highly experienced staff with skilled workers are confidently building elevators you can trust for a life time.

Advantages & Speciality of :

SUMIT ELEVATORS

- ❖ New Installation :
Passenger Lift, Auto Door Lift, Capsule Lift,
Goods Lift, Hospital Lift, Car Lift.
- ❖ Repairs, Maintenance & Modernisation of any make.
- ❖ Experience and trained workers.
- ❖ Economical Prices.

Quality &
Comfort that is
always installed by
SUMIT
ELEVATORS

Machinery :

SUMIT machines are designed for smooth, safe, silent & economical elevator performance. These machine are designed & utilised for low speed & medium speed elevator. Fig. 1

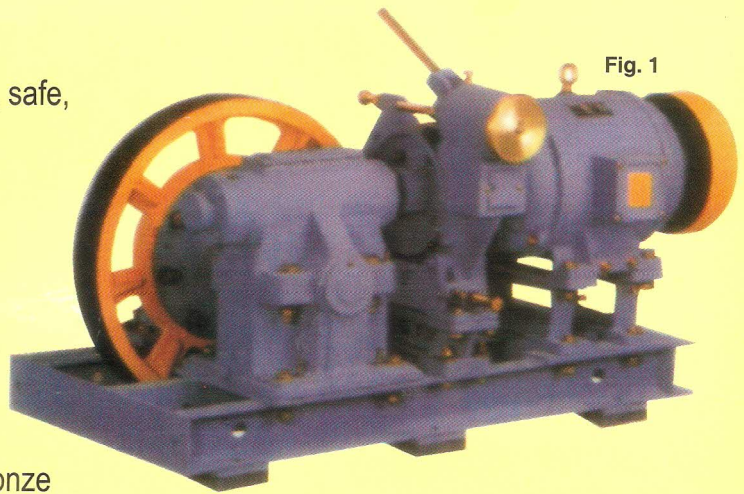

Fig. 1

REDUCTION GEAR BOX :

Reduction is effected by a good quality steel work, working in conjunction with a centrifugally cast, high tensile phosphor bronze worm wheel. This reduction gear box assembly is housed in a well designed cast iron case & all moving parts are automatically lubricated with high grade oil.

LIFT DUTY TRACTION MACHINE SET

HOISTING MOTOR :

The motor is specially designed & constructed for lift duty & conforms to the relevant specification for list rated motors. It ensures smooth acceleration silent running, high torque & low starting current.

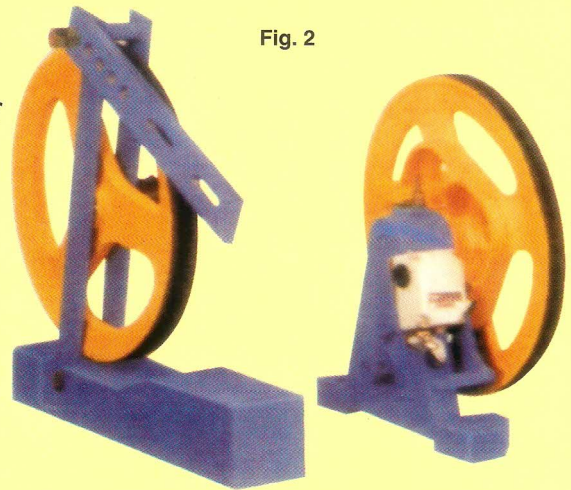

Fig. 2

BED PLATE :

The complete winding machine is mounted on a rugged bed plate of fabricated steel to ensure perfect alignment. The whole unit is mounted on rubber pads to make it vibration & sound free.

OVER SPEED GOVERNOR SET

OVER SPEED GOVERNOR :

The over speed governor is the safety features of the elevators. If the lift elevator exceed the rated speed in the downward direction, the speed governor controls this speed by operating the safety gear which switches off the main control circuit. This unit is tested before installation. Fig 2

ELECTRO - MECHANICAL LOCKS :

Locks are provided in the elevator to work in conjunction with the landing protection & to ensure that the gate or door cannot be opened, except when the car is opposite the gate/door. Built-in pre-locking contract is provided to ensure perfect electro-mechanical locking. Fig. 3

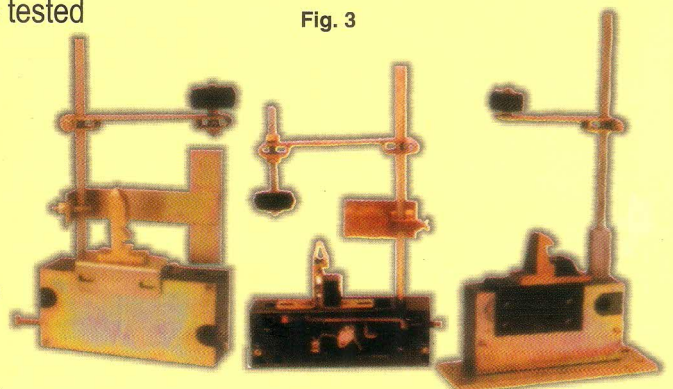

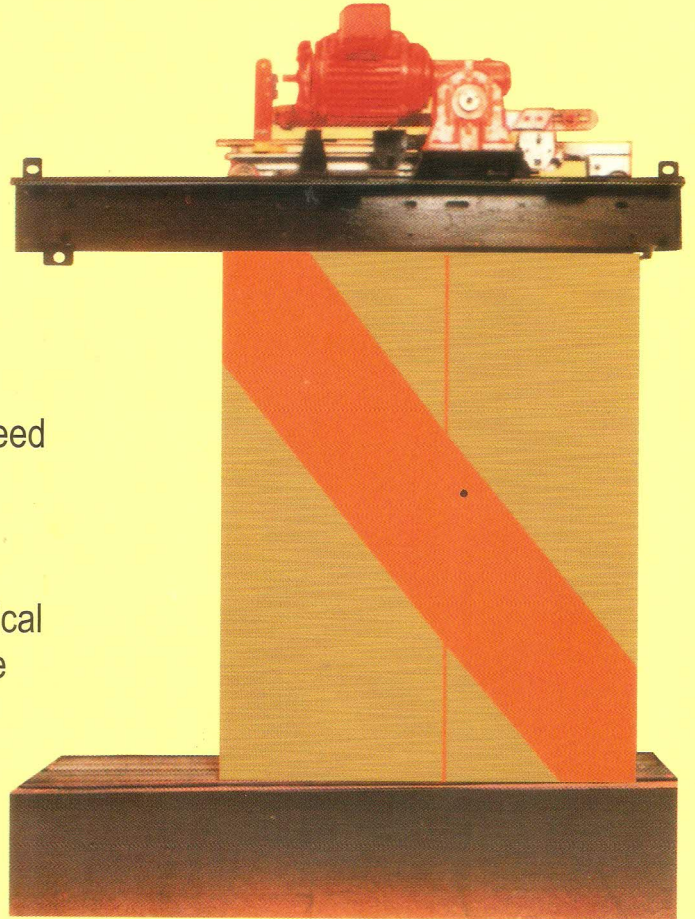

Fig. 3

DOOR LOCKS

SUMIT POWER OPERATOR DOOR SYSTEM

SUMIT AUTO DOORS ELEVATORS

are installed with most advanced micro processors control which ensure high speed with smoothest travel and with less time. Auto door elevators are design with harsh and unpleasant banging of door completely eliminated by inbuild mechanical dampeners. The car and landing door are made of mild steel with single colour paint. High grade nylon cladded shielded bearings preventing dust from entering in the bearing, for smooth & silent operation.

SUMIT ELEVATORS
